THE HOME

With a warm and welcoming home as our base, we find serenity in a fast-paced world. Surrounded by the comfort of our favourite things and furniture, our home is a haven away from the musts and shoulds of everyday life and a space of freedom to be grounded in the present. Cherishing the precious moments of imperfection, our home is a softly curated space of things that tell our story. An atmospheric place full of contrasts, just like ourselves.

Welcome home

PRODUCT OVERVIEW

- Furniture & Lighting	124
- Textiles	148
- Bed & Bath	160
- Objects	172
- Green living	190
- Kitchen	204
- Office	224
- Wallpaper	232

With our roots planted in the Danish design heritage, we develop contemporary and confident designs constantly challenging ourselves to shape the future.

Our foundation is design-driven with a passionate approach to craftsmanship and aesthetics. In a feminine tone of voice, we create designs for modest spaces and the candid moments of everyday life – products ranging from accessories over furniture to lighting.

Designed to steal your heart.

Unfold Room Divider

A conversation with founder & creative director Trine Andersen

“We design the things that are missing in our lives”

Retracing the steps of ferm LIVING’s development from one woman’s idea to a success story of an internationally acclaimed design brand is a journey that takes us through the trends of Scandinavian design and underlines the importance of staying true to yourself. Trine Andersen, the founder and creative director of ferm LIVING, is proud to see what her idea back in 2006 has grown into: How the creation of the wallpaper, she wanted in her own place turned into a respected brand of accessories and furniture for the entire home.

ferm LIVING’s simple design reflects their recipe for success: “We just placed one foot in front of the other and very organically grew bigger, making every step of the way feel natural. It was more of an easy flow forwards than it was a sprint after a fixed set of goals,” Trine Andersen says.

In a business of rapid changes, changing trends, and new brands popping up every week, staying true to the core of one’s business is essential. And from this principle, the design DNA of ferm LIVING grew, she tells:

“We design on a foundation of our personal wants and needs. We all have families, kids, and homes to decorate, and so we don’t produce or design anything we wouldn’t want to live with ourselves.”

“To navigate within the field of design, we set up a few fix points from which we move forward. We create designs for modest spaces and everyday life, meaning that functionality is at the heart of our designs.”

Although moving forward, ferm LIVING has kept a graphic profile as the common thread in the collections

throughout the year. Where, in the beginning, the graphic element was very explicit and came in forms of print with circles, triangles, or natural motifs, today it is more understated:

“We have maintained our graphic identity, only now with a different expression. In our most recent collections, the graphic edge is present as a texture, a silhouette, or geometry. We play with contrasts and structures. Colour has, therefore, always been important to us in our creation of an expressive and pleasant atmosphere,” Trine explains right before summing up what kind of brand ferm LIVING is and will become:

“We design within a recognisable universe, but we want to be the brand that doesn’t just present what our customers expect. It’s a part of our DNA to keep surprising with a new direction, object, or atmosphere.”

“We design within a
recognisable universe,
but we want to be the
brand that doesn’t just
present what our
customers expect.

It’s a part of our DNA
to keep surprising with
a new direction, object,
or atmosphere.”

POUF

Contrasts are not only captivating to the eye but will also bring sophisticated volume to a room. The poufs are in themselves a graphic element, which juxtaposes softness into a modern interior built up around simple principles. The rounded lines shape the distinct design in line with our fascination of geometry and create a simple and natural form, which invites a more organic expression into the home.

PUJO COAT RACK

With its simple, yet captivating silhouette, the Pujo Coat Rack balances functionality in an artful piece of furniture. The geometric look adds to the sculptural essence of the rack, creating a powerful statement in the hallway.

COLLECT LIGHTING

With a seemingly infinite range of expressions, ferm LIVING's innovative and interchangeable lighting system allows you to create customised and contemporary looks in each and every room. Offered in a fully compatible series of multiple shapes and colours, Collect Lighting gives you the freedom to create beautiful lighting solutions. Simply select your chosen lampshade and pair with the series' decorative brass ring and one of two socket pendants.

SALON CUSHIONS

Sometimes more is more, and the solution is glitter! Our Salon Cushion mimics the atmosphere of French salons in decadent times. By using delectable fashion fabrics, we discovered that certain *je ne sais quoi* we sometimes long for. With an eclectic bouquet of textiles, the Salon Cushions offer a beautiful splash of colour and a glamour zephyr in your modest abode.

Striped Boxes

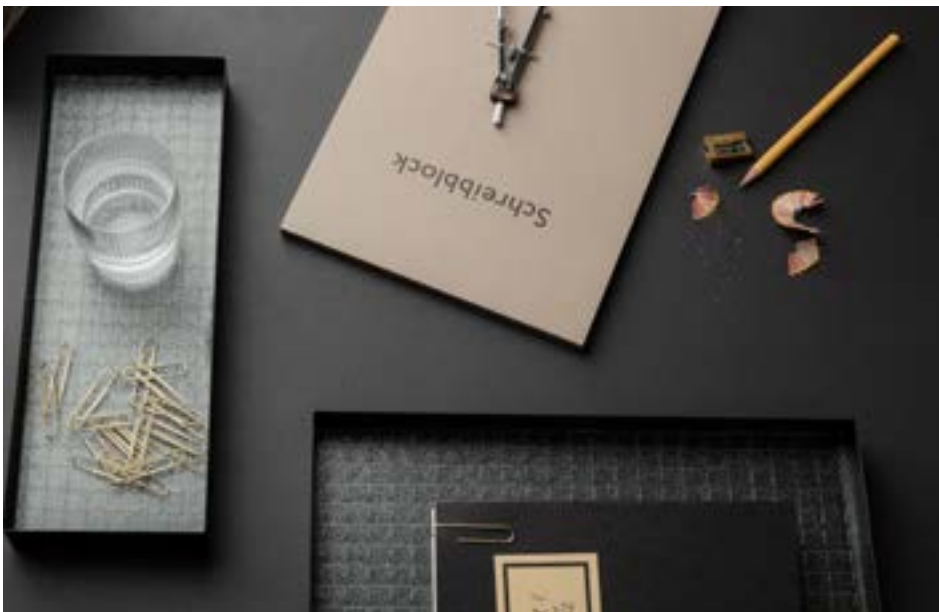

Plant Box - Round

BAU SERIES

The zeitgeist of the Bauhaus movement is rejuvenated in our new BAU series of plant pots and watering cans made of galvanised steel adorned with fine grooves. The Bauhaus style came into fashion at a point where creative design solutions and manufacturing were drifting apart, and the aim of their effort was to reach the point where form follows function.

We aimed at that same point in the design of the BAU series to create practical solutions for a green living that simultaneously enhance the home with a classic aesthetic. Designed with a foundation in geometrics, the pots add an extra dimension to home with their lifted tableaux, creating an airy feel. The light look recurs in the BAU Watering Can with an equally functional and aesthetic design. Made to last and with a classic appearance, the series offer an aesthetic update to any windowsill, patio, balcony, or garden.

Plant Box - Large · Plant Box - Small

RIPPLE LONG DRINK GLASSES

Channelling a sophisticated feel with their rippled surface of the mouth-blown glasses, the Long Drink Glasses are a natural part of an evening in good company. Individually shaped geometric forms and the stackable design are fundamentals of the dynamic glass series, equally aesthetic and functional. Pour in your favourite drink and watch as an iridescent play of light and textures appears in the ripples of the glasses.

STILL TEAPOT

Treasure a moment of tranquillity with the Still Teapot based on the traditional way of tea with a focus on simplicity and balance. The transparent and coloured glass makes brewing of the tea the heart of the pot, while the rounded glass lid reflects the aspect of balance, designed to spin around itself instead of rolling off the table.

HOOKS

Hooks on the wall or knobs on your cabinet door may make all the difference in a room. With inspiration in the world of adorning oneself with jewellery and accessories made of gemstones, we developed a new concept of hooks and knobs. They embellish your home with the classic aesthetic of honest materials, such as cast iron, semi-precious stones, marble, or brass.

WE CARE

It's a natural part of who we are to take good care of the origin of our products, so we create our products in line with traditions of craftsmanship, in honest materials and with a keen eye for detail. By honest materials, we think of clean, real commodities with a minimal impact on the environment.
